

iSense™  
by Garden Escapes

The NEW Wave In Outdoor  
Sound & Sensory Play Equipment

**iSense** is a unique range of outdoor sound and sensory play equipment. Designed and manufactured to the highest of standards, each product is equally at home in an educational setting or public park.

**iSense** is all about learning through play. Children of all abilities can experiment with rhythm, tone, pitch, and texture on their own or with a friend. We hope that our range of products will help you provide a play space where children can engage and develop their senses in a unique and memorable way.

Our iDrums are a big, bold and tough set of three drums which produce a deep, rich, resonating sound. Supplied in three different heights and diameters that produce different tones, our iDrums provide an opportunity for a large number of children to play them at the same time making a great group activity.

The drum heads are heavy duty HDPE and the bodies are powder coated aluminium.

Size  
The iDrums diameters are 500mm, 600mm, & 700mm with heights of 625mm, 700mm & 775mm respectively.

iDrums  
*Boom Boom Boom!*

Our iBongo is a fantastic little instrument which provides the opportunity for children to use their hands and to learn about rhythm and tone on a smaller scale than our iDrums. Four mini drums of varying sizes and tones are attached to a heavy duty HDPE panel which is in turn mounted on two sturdy aluminium posts.

Size  
1.0m x 0.8m

# iBongo

*Bam Bam Bam!*

Our new iChimes consist of 8 tuned aluminium chimes which produce a wonderful soft tone. Children can enjoy exploring tone and pitch as they express themselves through this great instrument.

The chimes are fixed onto two heavy duty HDPE supports using our unique mounting system. These are then fixed to chunky aluminium posts which can be powder coated in a range of colours. Specially designed play grade rope beaters are permanently attached to the posts for added security.

Size  
1.5m tall & 1.2m wide

Colour  
Available in Blue /  
Purple / Green

iChimes  
*Ding - a ling - a ling!*

The iMast has four tuned aluminium chimes which produce pleasing harmonising tones. These are attached to a central aluminium support post with our specially developed mounting system. The support post can be powder coated in a range of colours and is supplied with one of our unique play grade rope beaters attached.

Size  
1.5m tall & 0.25m wide

Colour  
Available in Blue /  
Purple / Green

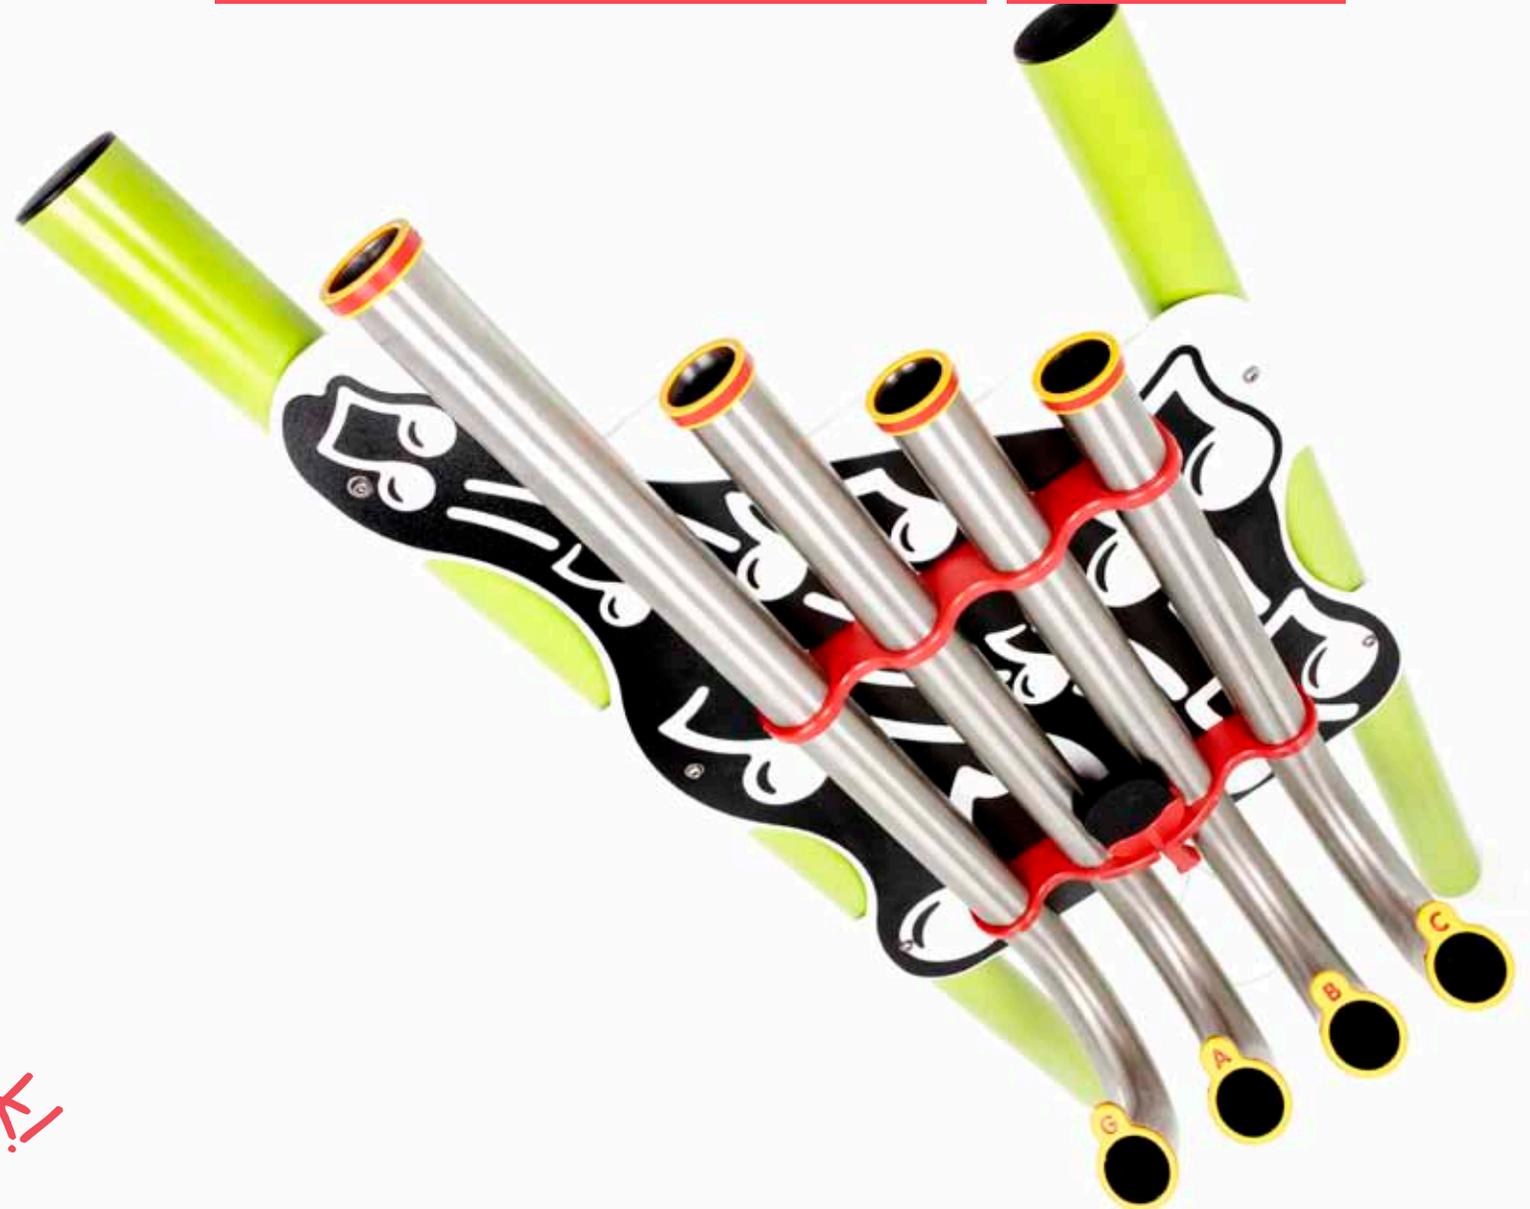

iMast  
La la la!

Our iTubes add scale and height to the play area. They consist of four tuned stainless steel J-shaped tubes mounted on a heavy duty HDPE support panel which make a deep soft sound similar to a bass guitar when struck with the specially designed paddle. The panel is mounted on two aluminium support posts which can be powder coated in a range of colours.

Size  
2.0m x 1.0m

Colour  
Available in Blue /  
Purple / Green

iTubes  
Plonk Plonk Plonk!

The iWheel fascinates children as it produces a great sound similar to the sound of rain as the wheel is turned. Great for team work and for experimenting with cause and effect. The wheel is made from heavy duty HDPE and stainless steel. The posts are 100mm diameter aluminium with a powder coated finish.

Size  
1.2m tall & 0.6m wide

Colour  
Available in Blue /  
Green / Purple

iWheel  
*Sssshhhhhhhhh!*

iTwist is a modern take on our popular Spiral product which has been redesigned to make it more suitable for open public spaces as well as schools. The iTwist continues the styling of our iSense range with tuned anodised aluminium chimes mounted on chunky coloured aluminium support posts which each have their own specially designed play rope beater attached.

This configuration has been very popular as it allows up to 8 users to play the instrument together. Children can move through the instrument as well as round it creating a very interesting creative and social area within the playground.

Shown here set in a 3m diameter circle, however some customers have placed the chimes along a path as an alternative. Post heights range from 2.0m above the ground down to 1.1m

*Ting Ting Ting!*

### **iSense Materials**

iSense products are manufactured to the highest of standards using a range of high quality materials and processes to ensure that each product provides years of service and enjoyment. The main materials that have been used are given below. Please feel free to contact us if you require any further information.

- Structural grade aluminium has been used for all support posts, iChimes and iDrums providing excellent strength to weight properties and resistance to corrosion.
- HDPE (High Density Polyethylene) has been used for the tops of our iDrums, iWheel and other supporting panels.
- Stainless steel anti-tamper fittings and fixtures are used throughout the iSense range.
- Commercial, steel core play rope has been used in the design of our unique rope chimes beater making them much safer and more durable than any other type available.

### **iSense Safety**

We are committed to providing enjoyable and safe play opportunities, therefore all of our products have been certified to EN1176 – the recognised European standard for playground equipment

### **Warranty**

20 Years Structural life expectancy

5 Years Warranty for all painted surfaces against significant corrosion due to faulty materials or finishing

2 Years Warranty against material or manufacturing fault

NB: Vandalism and mistreatment is not covered by any of the above warranties

Bam Bam Bam!

Whooshhhhh!
