

# **Here for ... Health & Beauty**

Is there anything more satisfying or relaxing than a wonderful massage - well yes there is now!!!.

Calm Beauty Salon in Edgworth have just introduced to their already comprehensive treatment range a new two therapist massage for double delight!!!.

The beautiful South Pacific Island of Fiji has enabled them to offer their clients the classic two-therapist massage. This is an amazing opportunity to sample the unique blend of Fijian, Balinese, Shiatsu, Thai, Swedish and Hawaiian Lomi Lomi massage techniques all in one.

This full body massage is a truly amazing experience where two therapists work simultaneously and in synchrony. The therapists mirror their actions with choreographed massage movements resulting in the ultimate massage experience.

If massage is not for you then try one of their other popular treatments, with the sun starting to break through more often and the temperature rising we are all starting to shed those layers and what better way to lift you out of the long winter months than with a new Solaris spray tan or fabulous summery manicure.

Whatever your preference Sue and her team at Calm will give you a warm welcome and discuss your needs and select a treatment that gives you that boost as we enter into the summer months.

74 Wellington Road, Turton, Edgworth Bolton
