**ikinci bölüm : dil bilgisi**

*Have you noticed that the we have not talked about a Turkish word for “the” (or definite article). That’s because there is not a Turkish word for “the”; you guessed it we use a suffix!!*

*The definite article suffix is easy to form we just use a buffer –y- if the word ends with a vowel and then a vowel ending which follows the four part harmony rule (table B) in other words (y) v4*

*Meal times provide an excellent example of when we would use this suffix:*

patatesi

balığı

çorbayı

*We use the definite article suffix just as you use the word the in English. We are not asking someone to “pass a fish” any old fish but to “pass the fish” ie the one on the table!*

*You might also notice us using the definite article suffix with a person’s name in which case we are saying (eg Mehmete) in which case we are saying we don’t mean any old Mehmet but the one that you and I know or who has just been mentioned in conversation.*
