

# Motorhome Carrier Catalogue

LNB Towbars & Vehicle Extras Limited, Unit 7/8, Fairway Ind. Centre,  
Golf Course Lane, Filton, Bristol BS34 7QS

**Stay mobile anywhere**

The Apoyo carrier system features a capacity of 150kg for transporting your scooter/motorcycle on your travels.

Using a combination of solid and lightweight materials has led to a system that not only provides transportation, also keeps your transportation safe.

The carrier can be removed from the vehicle in just a few easy steps, for when it's not needed.

Includes:

Loading Ramp, Handlebar Holding Kit, Wheel Chocks, Securing Lashings and Vehicle Specific Electrics Kit.

**Secure**  
Holding kit for secure transport.

**Easy to use**

Simply pull out the ramp support, snap the ramp in place and you're done.

**Optional Cover**  
Cover protection for 2 bikes or single scooter.  
(Note: straps and signs are optional extras)

**150 kg**

Mounts directly onto the vehicle chassis, no need for a towbar!

**Cargo securing**

Tie down your scooter using the 4 optional eyelets to ensure a safe drive.

**Anti-slip Coating**  
Ensures the wheels have a good grip and everything stays secure.

### Optional Cover

Cover protection for 2 bikes or single scooter.

(Note: straps and signs are optional extras)

### The increase in design

The Apoyo Elegancia carrier offers mobility wherever you are with a load capacity of 150kg.

The carrier consists of a combination of elements made of steel, aluminium or plastic to meet their specific task.

Optimisation with regard to load capacity and weight offers you a load capacity without much intrinsic weight.

Includes:

Loading Ramp, Handlebar Holding Kit, Wheel Chocks, Securing Lashings, Bicycle Holding Arms and Vehicle Specific Electrics Kit.

### Protective cover for bicycles

The rugged, cost-effective protective cover is made of polyester fabric. It is available for 2 bicycles or 1 scooter.

The transparent pouch provides the best spot for any required warning signs. Straps for tightening are secured in the towing rings.

### Secure

Holding kit for secure transport.

### Safety

Eyelets are a great help for tying things down.

### Looking for some individuality?

A variety of taillights – compatible with every vehicle type.

150 kg

Mounts directly onto the vehicle chassis, no need for a towbar!

### Secure

Holding claws for moving and adjusting your bicycles.

**Optional Cover**  
Cover protection for 2 bikes or single scooter.  
(Note: straps and signs are optional extras)

## Protective cover for bicycles

The rugged, cost-effective protective cover is made of polyester fabric. It is available for 2 bicycles or 1 scooter.

The transparent pouch provides the best spot for any required warning signs. Straps for tightening are secured in the towing rings.

## Durable on the go

The Carrier 110 can handle a load capacity of 110kg with ease. Its solid construction is truly appreciated.

Mounting on the motorhome's chassis using carrier holders allows removal from vehicle, when not required.

The chassis mounting does not require drilling any holes into the rear of the motorhome

Includes:

Loading Ramp, Handlebar Holding Kit, Wheel Chocks, Securing Lashings and Vehicle Specific Electrics Kit.

**Secure**  
Holding kit for secure transport.

**Secure**  
4 lashing eyes help you tighten scooters or motorcycles securely.

Mounts directly onto the vehicle chassis, no need for a towbar!

Ideal for lightweight scooters and motorcycles.

Mounts directly onto the vehicle chassis, no need for a towbar!

## Ready for anything

The bicycle carrier from Liberco transports both electric bicycles as well as standard bicycles.

The design consists of a stable steel base that is combined with elegant fittings made from lightweight aluminium.

Carries up to 80kg.

Chassis mounted, no need for towbar.

Includes: Vehicle Specific Electrics Kit.

80 kg

## Flexibility

Simply fold it up to free up space.

## Bicycle protective cover

The fully enclosed cover provides effective protection against dirt and prying eyes.

It consists of polyester fabric and a PVC fabric covering that ensures protection from below. The protective cover opens from right to left using a zipper. The stitched on transparent pouch provides the perfect spot for warning signs required in some countries.

A set of 4 stitched on loops allow straps to secure your cargo and 4 eyelets on the transparent pouch help you fix your straps in place. The adjustable straps are approximately 3.8m long.

## Optional Cover

Cover protection for 2 bikes.  
(Note: straps and signs are optional extras)

## Optional - Access ramp

An access ramp is the ideal aid for handling heavy electric bicycles. The ramp simply inserts into the respective rail using two pins and is ready for loading.

## Optional - Expansion for one bike

You can transport up to 3 bicycles with the expansion for 1 bike.

The third bike can weigh up to 15 kg.

## Carrier 110 R2 for bicycles

Mounts directly onto the vehicle chassis, no need for a towbar!

110  
kg

### Everything well in hand

Carrier 110 R2 is ideally suited for transporting your bicycles. Flexible holding arms and straps secure the bikes to the rails using tried and tested three-point mounting.

Carries two bicycles. 110kg capacity.

Includes: Vehicle Specific Electrics Kit.

#### Optional Cover

Cover protection for 2 bikes or single scooter.

(Note: straps and signs are optional extras)

## Carrier 110 R4 for bicycles

### More capacity

Carrier 110 R4 is ideally suited for transporting your bicycles. Flexible holding arms and straps secure the bikes to the rails using tried and tested three-point mounting.

Carries four bicycles. 110kg capacity.

Includes: Vehicle Specific Electrics Kit.

110  
kg

#### Optional Cover

Cover protection for 2 bikes or single scooter.

(Note: straps and signs are optional extras)

### Protective cover for bicycles

The rugged, cost-effective protective cover is made of polyester fabric. It is available for 2 bicycles or 1 scooter.

The transparent pouch provides the best spot for any required warning signs. Straps for tightening are secured in the towing rings.

**Cargo securing**  
Tie down your scooter and other luggage using the eyelets.

**Multiple uses...**

The Socorro offers a platform base, allowing for a multitude of uses. Motorcycles, bicycles, storage and much, much more.

Giving you a carrying capacity of 150kg.

Includes: Vehicle Specific Electrics Kit.

**Secure**  
Additional holding kit for secure transport.

**Optional load ramp for two-wheeled transport**  
You can conveniently load your two-wheeled vehicle with the optional ramp. Hook the ramp in and drive up or down it.

**Brilliant**  
Simply hook in and load up the optional ramp.

**150 kg**

**Secure**

The optional holding kit II helps you secure scooters or motorcycles.

**Cargo securing**

Four eyelets provide the perfect means of tying down cargo. The eyelets are included in standard delivery.

**Socorro A500**

Designed specifically for vans, its innovative extension system ensures that both rear doors can be opened completely even when loaded with cargo.

Fits:

- Fiat Ducato 2006 onwards
- Peugeot Boxer 2006 onwards
- Citreon Jumper 2006 onwards

Includes: Vehicle Specific Electrics Kit.

**Brilliant**

Simply hook in and load up the optional ramp.

**Got a towbar? No problem!**

The Socorro A500 can be removed completely if necessary, with an assortment of safety devices providing protection against incorrect handling.

1. Let's get started

2. Pull out the carrier

3. Open both rear doors!

Even with a load of 130kg!

## The increase in design

The TowBox® BoX V2 transport system easily attaches to the towbar via a quick-release fastener for providing quick and convenient transportation. This handy box has the perfect place for your cargo.

Sports equipment, suitcases, prams, etc. can all be transported conveniently without restricting the space inside of the vehicle.

The rear box, including basic carrier, is equipped with a rolling mechanism that makes mounting and removal significantly because no carrying is required. The lockable quick-release fastener can be operated easily and securely. The rear carrier can be folded down easily using the integrated extension mechanism. This usually also provides access to the boot for loading.

## Secure

Additional storage solution, which attaches to towbar.

## Towbar Mounted:

Rear carrier storage system assembly including the rear box (with two covers that open to the side), including a 13-pin illumination unit.

The box has an internal volume of approximately 390 litres. The rear box is made of high quality polyethylene (average density) and is very resistant and easy to clean as a result.

The maximum load capacity is 66kg, the box itself weighs approximately 26kg.

## Internal Dimensions

485 x 520 x 1100mm (at entry point)

Includes:

Divider to separate into two compartments.

Fold down roller wheels allow for easy maneuvering, when off the vehicle.

Slide forward and tilt facility for boot access.

Locks onto towbar. Fully lockable access doors.

Easy clamp mechanism, fits any 50mm towball.

Available in white/grey or black.

## Vanstar two bicycle carrier

Mounts directly onto the vehicle chassis, no need for a towbar!

60 kg

### Ideal solution...

This makes it an ideal carrier for E-bikes, as it is fitted on knee height and there is no need for lifting the bikes high onto the carrier. The bike carrier swings away to the right hand side of the vehicle which allows both the rear doors to be opened simultaneously. This allows you easy access to the rear stowing compartments of your vehicle.

If not used, the bike carrier can be folded up to save you space in your garage or anywhere else. It can also easily be dismantled due to the way it's fitted onto the chassis. The carrier is delivered as a complete kit for transporting two (electrical) bikes and a light bar with with a 13-pin Jaeger plug and bike arms are included.

The bike carrier is constructed from (powdercoated) steel arms and aluminium parts and has a maximum payload of 60kg, the overhang is about 70cm, folded only 30cm when not in use, the overall width is 185cm. The vehicle-specific cable with socket is not included and must be ordered separately.

Fits:  
VW T5/T6  
Fiat Ducato  
Peugeot Boxer

## Shorty Scooter/MP3 Trailer

Optional  
Storage box, spare wheel & carrier and stability leg.

160 kg

### Mobile security

The solution to the obesity of your camper. The Shorty trailer is easy to use by its small dimensions. With the scooter on it, it is easy to maneuver in the garage or on the campsite.

Perfect for heavier scooters or motorcycles, without increase on camper axle payload.

The Shorty comes complete with mounting hardware for a single scooter, wheelfix and ramp.

Finished in Galvanized steel.

Available options: 250kg or 160kg capacity.

250 kg
